The Upper Spring Christian Renewal Center

A 20 year vision has its beginnings - in the mountain town of Crown King, AZ

Historic Gold Rush Town will become a place of refreshing for the people of God

February 1st, 2008

Where is Crown King?

The historic mining town is nestled in the pristine pines of the Bradshaw Mtns, where Springs flow from the high places to the valleys below. Beautiful forest lands with Ponderosa Pine, Manzanita, Oak and Holly - only 2 hours from Phoenix!

Gold Rush of 1875

The Crowned King mine was the biggest producer of gold ore in the state and brought the Prescott & Eastern railroad to town.

Crown King Survives

Today, Crown King remains much as it was 100 years ago. It survived after the mining industry shut down, and the railroad tracks were removed in the 1920's. We believe God has preserved Crown King as a place of refreshing for the people of God.

Chapel has a vision

Our vision began some 20 years ago with confirming words from the Christian community, that this would be a place of renewal for the

ministers of the Lord and believed it would become a reality through the efforts of the body of Christ.

We envisioned facilities where believers could come for refreshing and renewal by the Holy Spirit's presence on the mountain.

Hummingbird Lodge

In the Summer of 2007, God opened the doors for the Chapel of the Crowned King to purchase the Hummingbird lodge to begin our ministry.

Special Ministry Opportunities for your Church or Small Group

Ministry Opportunities

This quaint mountain chalet is the perfect setting for the people of God to gather for refreshing.

We look forward to facilitating your small group as you utilize this setting for staff retreats, planning meetings and team building exercises. The building will have over-night accommodations for small groups up to 24 with overflow going to nearby local lodging facilities. We envision building or acquiring more facilities to expand the renewal center to accommodate larger groups in the future. The lodge has a full kitchen for preparing meals on site, and local restaurants are available for catered and dining room meals for our guests as well.

The Hummingbird Lodge sits on five acres in a beautiful mountain setting, but is not ready to receive guests.

Work to be done to be ready for guests

We acquired the lodge knowing that some remodeling would need to be done to fulfill its purpose.

Clean up of the property grounds is also needed as the building has been empty and neglected before the Chapel gained ownership.

Join us for a weekend of team building - volunteer your services or donate funds.

We are organizing teams for clean up, painting, carpentry and other tasks to help prepare this place of refreshing for

the people of God. In addition, there will be opportunities for terms of ministry that will be open for facilitators, maintenance workers and others. We will be seeking those wishing to share their music ministry and teaching skills with groups at the lodge, and looking for partners that can catch the vision and help financially as well.

Contact us to get involved

We believe God planned that His people would be involved in bringing the renewal center to life, and this opens opportunities for ministry within the body of Christ to be part of this vision of a place where ministers would be "blessed with every spiritual blessing in heavenly places in Christ." as written in Eph. 1:3 Call or write for more information and to request a 7 minute video to share with your small group or congregation.
